

N2 Purge Quartz Storage Cabinet

Storage for 4 Quartz tubes

These N2 Quartz Storage Cabinets fabricated from white, acid resistant, stress relieved Polypropylene/FRP are used in the Semiconductor Industry.

Polypropylene, the lightest of the thermoplastics is stronger and more rigid than conventional polyethylene. It can be used at high temperatures and resists stress, cracking, abrasion & failure from flexing.

The cabinets are of welded construction & are supplied with smoked Lexan doors.

- N2 Purge Valve Supplied
- ESD Leveling Feet
- Black or White PP Hinges & Handles
- Holds 96" Quartz Tubes
